Full Stack JavaScript Mobile/Web Developer
Available immediately

Profile and personality

I am a passionate lover of science in general and computer in particular. I am curious and very motivated by the idea of producing useful and high quality systems on each software and project I work on. I am fast learning and I always find it more exciting to work in a team.

Education

09.2016 – 09.2018	Master in **Management of information systems and infrastructures** Institut d'Ingénierie Informatique de Limoges France (Campus d'Afrique Centrale – IUC Douala)
09.2011 – 07.2016	**Bachelor in Computer Science** **University de DSCHANG.**

Professional experience

Spartiat IT, Douala – Cameroon January 2019 - Present
*Web and mobile application developer with **Laravel and Java-Android***
Project: Spartiat SMS, an SMS android app that will be used to provide white label SMS to local enterprises.
It is done in JAVA android with a PHP/Laravel server side app. I am in charge of this project and all tasks about it as single developer.
Link: play.google.com/store/apps/details?id=com.spartiat_it.spartiatsms
